Dr. Anika Sharma

Scientist E — Atmospheric Instrumentation & Applied AI
anika.sharma@example.org | +91 00000 12345 | New Delhi, India | linkedin.com/in/anika-sharma-example

PROFESSIONAL SUMMARY

Electronics and avionics engineer with twelve years of airborne-systems integration and qualification testing, followed by ten years leading scientific instrumentation and edge-AI development in government service. Experienced in MIL-STD-1553 test rigs, UAV payload electronics, sensor telemetry, embedded GPU deployment and technical procurement.

SKILLS

Avionics: MIL-STD-1553 / ARINC 429, Avionics integration
Scientific instrumentation: Environmental qualification testing, Sensor calibration, Radiosonde and upper-air systems
Embedded systems: Embedded C, ESP32 / STM32 microcontrollers
Edge AI: NVIDIA Jetson deployment
Drones & UAV systems: UAV payload integration
AI / machine learning: PyTorch, Deep learning
IoT: MQTT and Node-RED, InfluxDB and Grafana

PROFESSIONAL EXPERIENCE

Scientist E Jul 2016 – Present
Upper Air Instrumentation Division, Kestrel Atmospheric Instrumentation Laboratory, New Delhi
Responsible for upper-air observation instruments, the division workshop and the laboratory's IoT and AI/ML activities.

- Lead a four-member AI/ML group developing lightweight super-resolution and detection models for UAV imagery, deployed on NVIDIA Jetson devices with TensorRT.
- Led acceptance testing and commissioning of radiosonde ground-receiving systems at three observing stations, writing the test protocol and the defect-tracking procedure.
- Designed and deployed an IoT monitoring network for laboratory infrastructure (ESP32 sensor nodes, MQTT, Node-RED, InfluxDB and Grafana dashboards) covering temperature, humidity and power quality.
- Prepared technical specifications and served on bid-evaluation committees for instrument procurement through the Government e-Marketplace in line with the General Financial Rules.
- Authored standard operating procedures for pre-flight checks and calibration of upper-air instruments used across the division.

Additional charge: **Workshop In-charge**, Upper Air Division Workshop Apr 2019 – Present
Additional charge of the division workshop supporting instrument repair, fabrication and calibration.

Nodal officer: **Nodal Officer, IoT and AI/ML Initiatives** Jan 2021 – Present

Senior Design Engineer Jun 2004 – Jun 2016
Avionics Integration Group, Halcyon Avionics Design Bureau, Bengaluru
Integration and qualification testing of airborne electronics and UAV payloads.

- Developed payload interface electronics for a fixed-wing UAV electro-optical sensor and supported its ground and flight trials.

Graduate Engineer Aug 2002 – May 2004
Test Systems Group, Meridian Electronics Limited, Bengaluru
Built automated test equipment for avionics line-replaceable units.

- Developed LabVIEW test sequences for power-supply and interface boards of avionics units.

KEY PROJECTS

Edge super-resolution pipeline for UAV imagery *(Ongoing)* Sep 2021 – Present
Principal investigator, Kestrel Atmospheric Instrumentation Laboratory
Research prototype that enhances low-resolution UAV video in real time on embedded GPUs using pruned and distilled deep networks.
Technologies: NVIDIA Jetson Xavier NX, NVIDIA Jetson Orin Nano, PyTorch, TensorRT, ONNX, Docker, Structured pruning, Knowledge distillation, INT8 quantisation

- Implemented structured channel pruning and knowledge distillation to shrink the super-resolution network for embedded deployment.
- Converted models through ONNX to INT8 TensorRT engines, achieving 3.1× faster inference on Jetson Xavier NX.

Radiosonde ground-station acceptance test protocol Jan 2018 – Mar 2019
Coordinator
Station acceptance testing varied between sites.

- A common acceptance protocol and checklist adopted for new ground-receiving systems.

EDUCATION

Ph.D., Electrical and Electronics Engineering 2021 – ongoing
Northfield Institute of Science and Technology
Thesis: Lightweight deep networks for real-time enhancement of aerial imagery

M.Tech., Avionics 2010
Coastal Institute of Aeronautical Engineering, Chennai
Grade: CGPA 8.6/10
Thesis: Fault-tolerant data acquisition for airborne test instrumentation

B.E., Electronics and Communication Engineering 2004
Northfield Institute of Science and Technology, Northfield University, Pune
Grade: First Class with Distinction

CERTIFICATIONS & TRAINING

Deep Learning for Edge Devices Mar 2022
Example Academy of Applied Computing
Duration: 40 hours
Credential: EAAC-DL-0042
Valid until: Mar 2029

Workshop on Efficient Deep Learning for Embedded Vision Dec 2023
Example Conference on Instrumentation (ECI 2023)
Duration: 2 days

National Seminar on Upper-Air Observing Systems Aug 2021
Example Society of Atmospheric Instrumentation
Duration: 1 day

Mid-Career Training Programme for Scientists Feb 2020
Example Institute of Scientific Administration (sponsored by Ministry of Example Sciences)
Duration: 10 days

Public Procurement and GFR 2017 Nov 2019
Example Institute of Public Administration (sponsored by Kestrel Atmospheric Instrumentation Laboratory)
Duration: 5 days

AWARDS & HONOURS

Best Paper Award 2023
Example Conference on Instrumentation (ECI 2023)

LANGUAGES

English, Hindi
